Dedication

TO OUR PARENTS

We the senior class of Plum Bayou High School take great pleasure in dedicating this our 1966 year book to our parents.

As we travel our separate roads through life, we shall always be grateful for your efforts.

With this dedication, we hope to show in some small way our appreciation and sincere thanks for making our education possible.

Sincerely,
The Senior Class of 1966

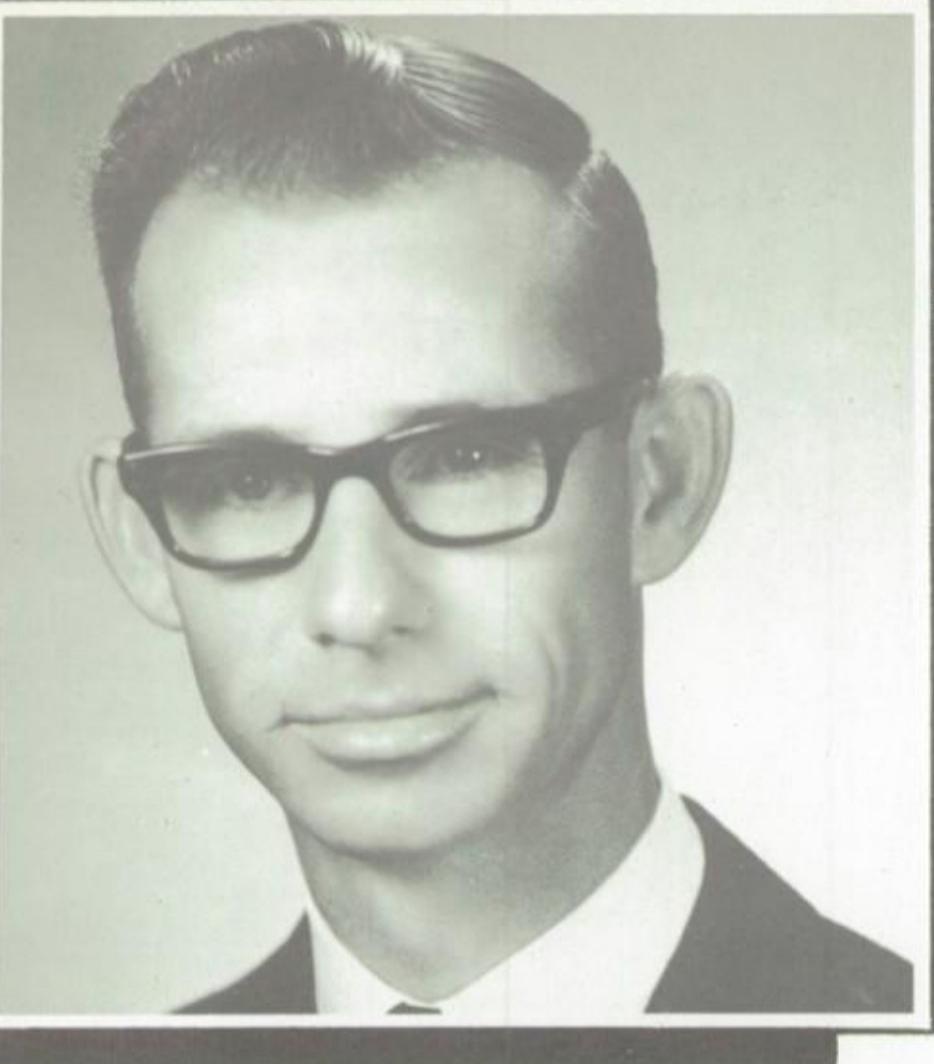

Superintendent's Message

The world waiting to receive the Graduates of 1966 is a world in the throes of rapid change. It is a world marked by rebellion and revolution, by technology and heretofore hidden dimensions of reality, by lofty idealism and basic social change, by new frontiers of economic potential and political challenge, and by an overall realization that change and newness itself is subject to further change and more ideas and things that are new. It is my hope that these students will be able to successfully cope with this new world.

The evolving patterns in every area of life will have a profound effect on every undergraduate year of study. New things and ideas will be adopted in every grade from 1 through 12. The school must do its utmost to prepare every pupil to take his or her place in this new world and then to change as this place changes.

It is my sincere hope that every graduate will find success and happiness in life. It is my further hope that all students preparing to graduate in some future year will make this preparation in all seriousness and that every teacher will do his or her utmost to challenge every student to achieve and become to his or her greatest potential.

James V. Henderson

Principal's Message

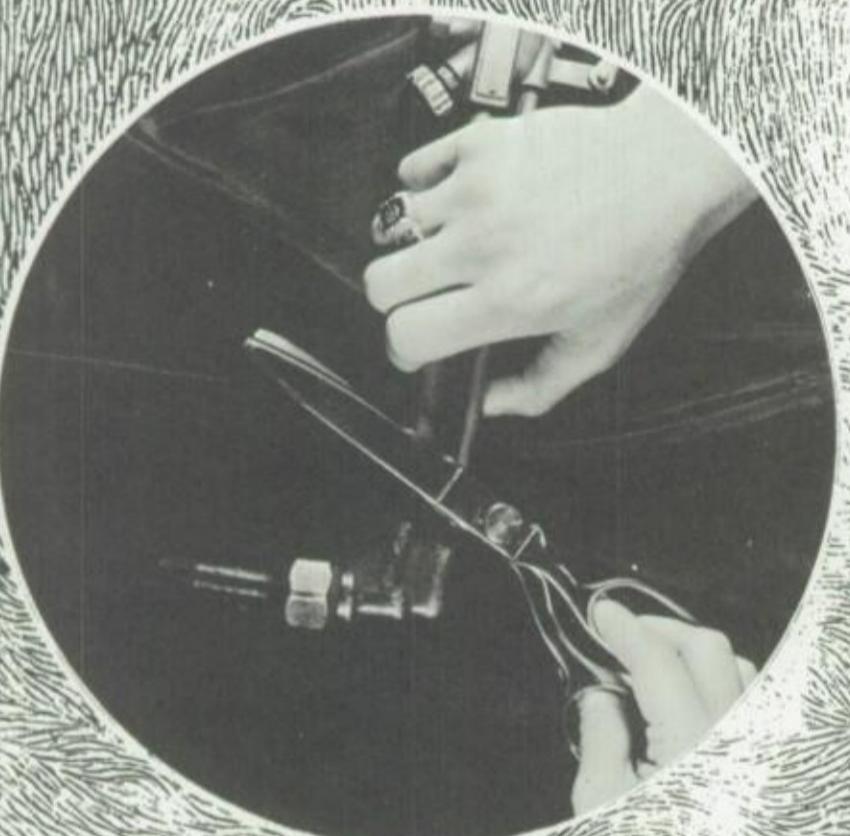

To the graduating class of 1966, I wish to congratulate you on your achievements at Plum Bayou High.

As you go about your way, let me remind you of the periods of our economic life: educational training, work, and retirement. Should the first period be neglected, the other two periods will suffer. I sincerely hope each of you strive to develop your mental facilities to the fullest.

Sincerely,

James K. Bradshaw

The image features large, bold, black-outlined letters 'PRA' and 'Z'. The letters are filled with a dense, wavy hatching pattern, giving them a textured, organic appearance. The 'PRA' letters are positioned at the top, and the 'Z' letter is below them, partially overlapping. The background is white, and the overall effect is graphic and modern.
